PATRICK HORNBY

Front End Software Developer

PROFILE

I am an experienced front end developer with a demonstrated history of 6+ years in the software industry.

My knowledge with the latest front end technologies, as well as my background in traditional art, has allowed me to work from the early stages of design/mockups to a finished product with interactions and animations.

STRENGTHS

HTML5 / CSS3 / SASS

Angular 2+ / TypeScript / JavaScript

GreenSock / CSS Animations

Webpack / Gulp / NodeJS

Photoshop / Illustrator

WORK EXPERIENCE

UNBOXED TECHNOLOGY / OCT 2016 - 2018

Interactive Developer: Unboxed Technology creates award winning training and sales enablement technology. As an Interactive Developer, I translated design mockups into large-scale Angular applications and added rich interactions/animations to create a fulfilling user experience. From time to time, I would also support the content team with creating and editing animations for training.

ZIIVA, INC. / FEB 2014 - OCT 2016

Web Designer/Developer: Ziiva is the creator of the Learning Management System called Prosperity. My role consisted of redesigning the UI and refactoring the codebase. It was my responsibility to create an interactive experience to help present the large amount of data available to the user.

THE ROANOKE TIMES / DEC 2011 - FEB 2014

Web Developer II: The Roanoke Times is a publishing company that provides a daily newspaper, regional publications, and other printed materials. As a Web Developer, I assisted in creating and maintaining a digital presence. I was the lead on developing the new roanoke.com redesign, created new websites for paid ad clients, as well as interactive ads for the Sales Department, project pages for the Newsroom, and PHP applications for internal use.

HORNBY CREATIONS / 2008 - PRESENT

Front End Developer, Designer, and Artist: Hornby Creations became my freelance identity for many personal and side projects. These projects include 3D character animation, a custom Angular app, WordPress and custom website builds, marketing materials, and portrait drawings.
